OLORUN
Trusted Knowledge in support of your mission!

Olorun is a professional services small business with expertise in Program Management and Digital Decision Support Solutions in the Washington , D.C. area to the DoD, DHS, and USAID to help meet their mission critical objectives.

CORE COMPETENCIES

- ☑ **Program Management** – We support the Government with management across all life cycle activities, from concept development through contract close-out. These services include Schedule development/ Tool Development & Support/Project Control/Earned Value Management.
- ☑ **Data Analytics** – We combine data science frameworks, statistics, and decision science to extract otherwise undetectable insights from complex data sets. We build digital tools that provide our clients with advanced analytical capabilities. We display data analysis results using actionable dashboards to facilitate effective decision making.
- ☑ **Digital Solutions** – We design the digital blueprint of the systems, processes to create sustainable value and effectively compete in today's digital environment. This includes developing a digital strategy that spurs innovation, forms a flexible organization that makes data - informed decisions.

PAST PERFORMANCE

- ☑ **Department of Homeland Security (DHS) –** Countering Weapons of Mass Destruction (CWMD) – Program Integration Mission Support Office (PIMSO).Overseeing program integration, cost engineering to the Countering Weapons of Mass Destruction (CWMD) office within the department of Homeland Security (DHS) in an effort to execute program requirements during key acquisition milestones to enable critical management decision making.
- ☑ **Department of Defense (DOD) –** Joint Program Executive Office for Chemical, Biological, Radiological and Nuclear Defense (JPEO-CBRND) – Medical Countermeasure Systems (MCS). Provided in-depth program support to the Next Generation Diagnostics System (NGDS) Increment 1 in an effort to deliver technical performance results to the Medical Countermeasure Systems (MCS) Joint Project Management Office located at Fort Detrick, Maryland.
- ☑ **Department of Defense (DOD) –** Defense Information Systems Agency (DISA) Teleport Office. Provided program evaluation to the Teleport Program Office (TPO) within the Defense Information Systems Agency (DISA).
- ☑ **Department of Commerce - USPTO –** Designed quality assurance surveillance system blueprint to report program effectiveness with key stakeholders in determining contract success and deployment strategy.
- ☑ **FreddieMac –** Provided analytical support of the Deal Pipeline Manager (DPM) Application as the deals go from initiation to completion and investigated data flow issues between DPM and its downstream databases.
- ☑ **World Bank Group -** Designed the digital transformation of the Adapting to Change Program, which is a learning program on population, reproductive health, and health sector reform.
